EXPERIENCE

Macquarie University, North Ryde — *Data Science Internship*

August 2019 - Jan 2020

Using Python and Data Science techniques, I have created actionable Business Intelligence regarding student enrolment rates in the Ancient History department.

<https://github.com/mq-pace-unit-estimator/arts-estimator>

Dominos, Erskine Park — *Delivery Driver*

March 2015 - September 2019

Delivery driving, customer service, and store preparations.

EDUCATION

Macquarie University, North Ryde — *Bachelor of Science*

January 2015 - December 2019

Major in mathematics with a minor in computing.

Loyola Senior High School, Mt Druitt — *HSC*

January 2013 - December 2014

PROJECTS

My Portfolio Website — Much more information on my projects can be found here! <https://tdemkowski.github.io/>

Instagram Clone — Building instagram from scratch with Typescript. The frontend involves React, Redux, and SCSS. The backend involves OOP, Node.js, Express.js, PostgreSQL, and libraries bcrypt and jwt for user authentication.

Item Shop Website — Uses Model-View-Controller architecture with Javascript, Node.js, Express.js, MongoDB, EJS, CSS. Before MongoDB I used MySQL with Sequelize.

Technical Skills

Javascript

Typescript

HTML, CSS, SASS

Node.js, Express.js

React, Redux

MongoDB
